Public Access – Key Benefits.

The new functionality delivered by the new Public Access solution include:-

1. A simple flexible approach to information delivery. These include:
 - Minimal registration information
 - Simple methods of setting user preferences for planning information notifications
 - Within a distance of an existing address
 - Within a user specified map polygon
 - Within an Authority.
2. Clear, simple screen layouts
3. Compatible with common web browser solutions
4. Simple and effective searching for information e.g. by address, planning reference etc
5. Mapping is embedded into search results page for more effective presentation of information.

The screenshot displays the Planning Portal website. At the top, there is a header with the 'Planning' logo and a navigation bar containing links for Search, My Profile, Login, and Register. Below the header, a welcome message reads 'Welcome to the new Public Access portal'. The main content area is titled 'Planning » Simple Search' and includes a sub-header: 'Search for Planning Applications by keyword, application reference, postcode or by a single line of an address.' Below this, there are tabs for 'Simple', 'Advanced', 'Application Lists', 'Property', and 'Map'. A 'Status' dropdown menu is set to 'All'. A text input field is labeled 'Enter a keyword, reference number, postcode or single line of an address.' and is followed by a 'Search' button. The 'an idox solution' logo is visible in the bottom right corner.

User Details

Anyone can use the NI Planning Portal Public Access to view planning applications, but to take advantage of the advanced profile features that allow you to save searches and track applications you must first register for a user account on the system.

Registration

1. Click on the Register icon at top of page on the menu bar

The banner features the NI Planning Portal logo on the left, which includes a stylized house icon and the text 'PORTAL Planning'. To the right of the logo is a collage of three images: two construction workers in hard hats, a row of terraced houses, and a modern building at night.

Public Access – Search Facilities

Simple Search

Your primary activity on Planning Portal Public Access will be to search for applications according to a variety of criteria. One method of this is the 'Simple Search' feature. This allows the user to search for applications according to some manually entered text.

This includes:

Keyword: (For example, "Solar Energy") Note: Keyword search is based on what is input as the Proposal of the application.

Application Reference Number: (For example, LA04/2015/0252/F)

Postcode: (For Example, BT2 8GB)

Single Line of Address: (For Example, "Adelaide Street")

A screenshot of the Planning Portal Simple Search page. The header shows the 'Planning PORTAL' logo and a banner image of construction workers and a modern building. Below the header is a navigation bar with links for Search, My Profile, Login, and Register. The 'Simple Search' page is displayed, showing a welcome message and a search form. The search form has tabs for Simple, Advanced, Application Lists, Property, and Map. The 'Simple' tab is selected. Below the tabs is a 'Status' dropdown menu with 'Current' selected. Below the status menu is a text input field with the placeholder 'Enter a keyword, reference number, postcode or single line of an address.' and a 'Search' button. The input field contains the text 'BT2 8GB'.

1. Enter a keyword, application reference number, postcode or single line of address into the search field.
2. From the 'Status' drop down, select whether search results you desire are for applications that are 'Current' or 'Decided'. Alternatively select option for 'All' to return combination of both Current and Decided applications.

Advanced Search

An advanced search allows you to build a complex combination of desired criteria on which to search for an application. The user can perform a search through the use of more specific criteria in comparison to the Simple Search feature.

1. Input a range of known/required details into the 'Application Details' section in the Advanced Search form.
2. A Date Range can be entered for the criteria that you are interested in. This can be entered manually or alternatively completed using the calendar function.
3. NOTE: The Wildcard character (*) can also be used in text fields to assist in search functionality.

Application Lists – Weekly & Monthly List Search

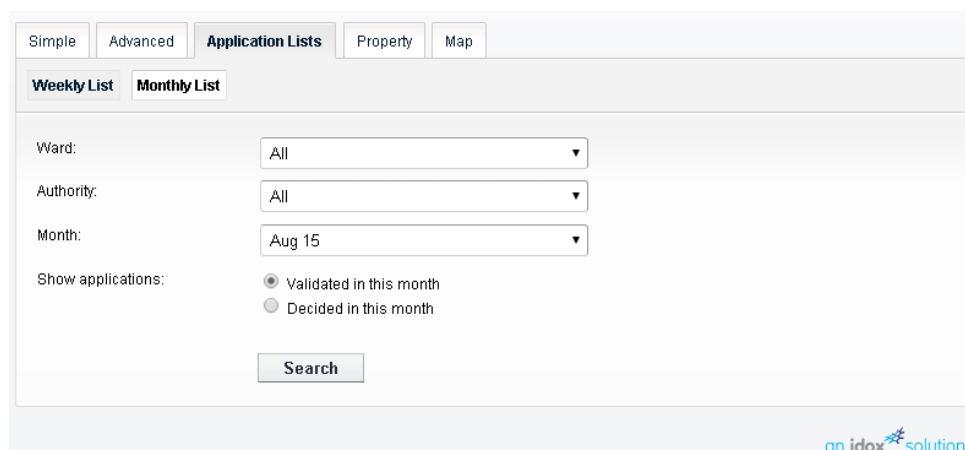

The Weekly/Monthly lists feature allows you to search for applications according to the week or month in which they were validated or decided.

Weekly List

1. To perform a 'Weekly List' search, click on the Application Lists > Weekly List tab.
2. Select the Authority.
3. You can narrow down your search further by selecting appropriate Ward. Alternatively keep Ward selected as 'All' to search all wards within the selected Authority.
4. Specify 'Week beginning' from drop down list.
5. You can specify applications which were validated or applications which were decided during the selected time period. Make the appropriate selection under 'Show Applications'
6. Click search to return results.

Monthly List

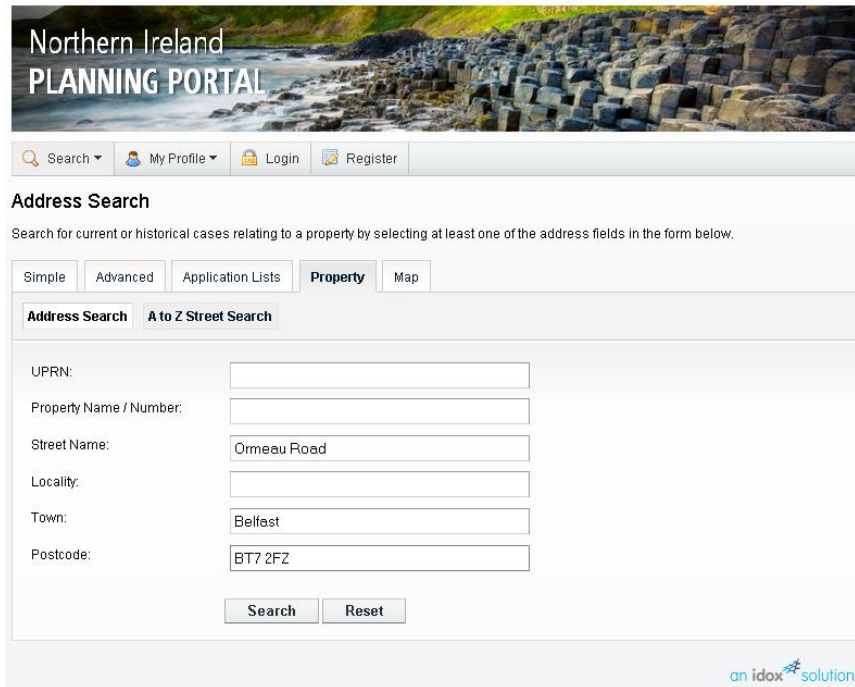

Monthly List works in the same steps as above, however as opposed to selecting 'Week beginning' the user will select 'Month' in which search criteria is to be based.

Property – Address Search & A to Z Street Search

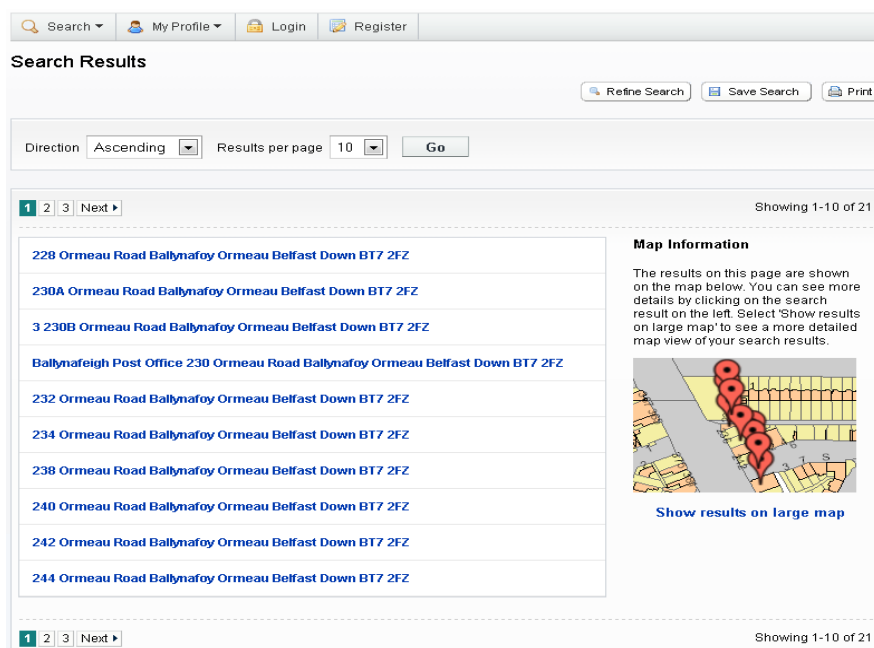

The Property Search feature allows you to search for current or historical cases relating to a specific property. There are two methods to achieve this:

Address Search – Search for applications based on a specified known address.

The screenshot shows the 'Northern Ireland PLANNING PORTAL' header with a search bar and navigation links (My Profile, Login, Register). Below is the 'Address Search' section with a sub-header 'Search for current or historical cases relating to a property by selecting at least one of the address fields in the form below.' There are tabs for 'Simple', 'Advanced', 'Application Lists', 'Property', and 'Map'. Under the 'Address Search' tab, there are input fields for UPRN, Property Name / Number, Street Name (pre-filled with 'Ormeau Road'), Locality, Town (pre-filled with 'Belfast'), and Postcode (pre-filled with 'BT7 2FZ'). 'Search' and 'Reset' buttons are at the bottom right of the form area.

1. Enter as many details as you know in the appropriate fields, then click on the 'Search' button. At least one field must be completed. If required, click on the 'Reset' button to clear the fields and start again.

The screenshot shows the 'Search Results' page. It includes navigation links (Refine Search, Save Search, Print) and a table of results. The table lists properties on Ormeau Road, Ballynafoy, Belfast, with BT7 2FZ postcodes. A 'Map Information' section on the right explains that results are shown on a map and provides a link to 'Show results on large map'. The page shows 1-10 of 21 results.

*Alternatively you can use the mouse wheel to perform Zoom in and Zoom Out functions.

Legend and Filter – With the legend and filter, you are able to view Planning Applications that have occurred within a certain time frame or alternatively view property details based on the current view on the map.

Save a Rectangular Search – Based on the current extent which the map is set, you can save a search based on the specific location set in the map viewer.

Save a Circular Search - A Saved Search can be stored based on applications that fall within a circular radius that is defined by the user on the map. Under 'Save a circular search', there is an optional 'tick box' to 'show on map'. When this is checked it will display circular radius on the map for user to determine the area required for their saved search. The radius span can be adjusted to suit the user's needs. (See [Saved Searches](#) Page 25 for more info.)

My Profile

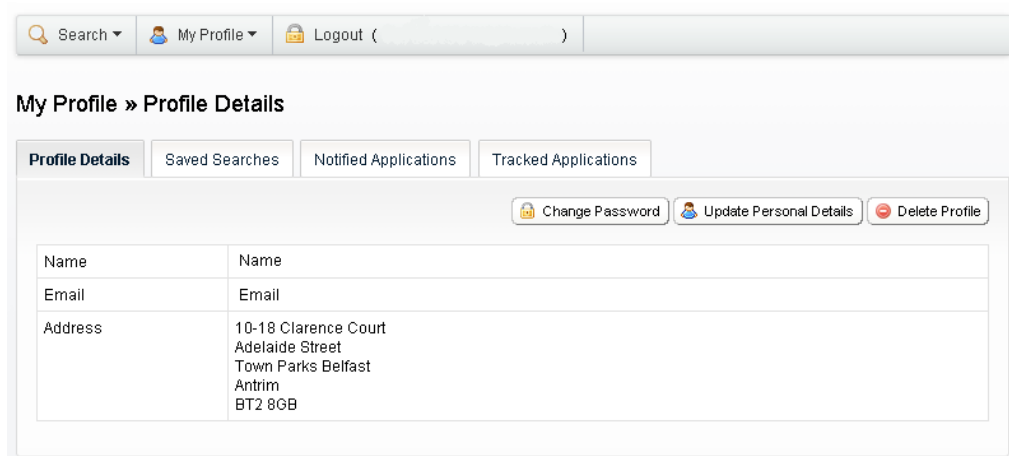

Once your account has been created and confirmed, you will be able to access your 'My Profile' area. This area allows you to configure your personal details as well as manage your searches and applications.

Profile Details

The profile details page can be accessed at any time to allow you to update any of your account details.

1. To access your profile page select **Profile Details** from the **My Profile** drop down list in the menu bar. This page allows you to view details you have registered with. You are able to Update Personal Details, Change Password or Delete your Profile.

2. To update your password, click on the Change Password button. Complete all required fields.
3. To change details click on 'Update Personal Details'. Alter your details as appropriate, clicking on the Next button to page through the sections.
4. To delete your profile from Public Access, click on the 'Delete Profile' button. The subsequent screen will ask user to Confirm their actions. To permanently delete profile click 'Delete'

Saved Searches

The primary activity on Planning Portal Public Access is to perform searches for planning information. Searches that are performed regularly can be saved so that they may be repeated easily and as often as you like.

1. Perform an application search on criteria which you use frequently. The example below is searching for applications in Authority 'Belfast' that contain the keyword 'Wind Turbine'. As part of the search criteria you can use the wildcard character to see applications with the LA04/2015 prefix. This can be achieved by using the wildcard (*) character.

The screenshot shows the 'Advanced' search tab selected. It features two main sections: 'Reference Numbers' and 'Application Details'. In the 'Reference Numbers' section, the 'Application Reference' field contains 'LA04/2015*'. The 'Application Details' section contains several fields: 'Description Keyword' with 'Wind Turbine', 'Applicant Name' (empty), 'Application Type' (dropdown set to 'All'), 'Authority' (dropdown set to 'Belfast'), 'Ward' (dropdown set to 'All'), 'Agent' (empty), 'Status' (dropdown set to 'All'), 'Decision' (dropdown set to 'All'), 'Appeal Decision' (dropdown set to 'All'), 'Development Type' (dropdown set to 'All'), and 'Address' (empty with a help icon).
